Elis Group of CSUs

*Elis Framework*

## Elis Framework

The Elis Group of CSUs established this OJEU compliant framework agreement, through which they can flexibly access a range of supporting expertise and capacity from the commercial and voluntary sectors.

The Elis Framework will help to ensure that the Elis Group CSUs are always able to provide the best possible skill match to customers as well as procure specialist knowledge to meet demand from trusted suppliers.

The Elis Framework offers value for money to commissioners and the public.

The Elis Framework providers offer flexible, best value, innovative and responsive services to customers in the following areas across 3 lots:

### Care Pathway Optimisation & Expert Knowledge

#### Lot 1a: Needs Assessment

health needs assessment, equalities impact assessment

#### Lot 1b: Best Practice Advice

evidence reviews and care pathway redesign, benefits realisation, evaluation and R&D

### Patient & Public Engagement

#### Lot 2: Patient & Public Engagement

### Organisational Development & System Development

#### Lot 3a: Organisational Development

organisational change, clinical engagement, team, top team

#### Lot 3b: System Development

strategic change across health and social care systems

---

*“The Elis Framework is a collective opportunity to offer inspirational commissioning support.”*

---

## How to access the Framework

Any public sector organisation can access the framework as long as they do so via an NHS Commissioning Support Unit.

Those wishing to access the Framework will be required to register as a customer with a CSU. All NHS CSUs are eligible to register to use the Framework although they may be charged a small administration fee for doing so.

For additional guidance please contact the Elis Framework Hub:
